Discovering God's Will

Excerpts from the Satsang, "What Is God's Will for You" (TAPE A37)

"... there really is such a thing as God's Will. And this world was created as His expression or for His Will. It's an extension of God's Will. And I'm going to both tell you what God's Will is as it was revealed to me and give you a prescription for life because that's God's Will also.

"God's Will is real simple: it's for you to be happy, healthy, wealthy and wise: that's it."

"God's Will is that we be happy, for openers. And what is happy? Happy is, according to His Will, being with Him. So, really, it extends beyond what we call happiness and moves into Joy. Just the Joy of Spirit, of our being 'there,' of our being entirely present with God. And if you're honest with yourself and you check your own reference points because that's what this Path teaches you — we have the Teachings and those are the outer Teachings and the outer Teachings are there to help you access your Inner University, as it were, the Soul — and you have your experiences as a Soul and you go 'there'. And thanks to the Teachings we know how to do that - you go 'there' and you see, 'Hey, I had this experience. This is so. This means this. This means that. This means this.' And those are your reference points, so you have inner reference points. See, and that's key... We teach that you are Eternal, that you are One with the Spirit and that you're a Co-creator with God of your life. And we teach you how to go inward and know God directly. So you go inside and you have these experiences and if you're honest with yourself and you check out your own reference point... If you check out your experience and you ask, 'Okay, when have I really been the most Joyous in my life?' you'll probably answer, 'When I was hanging out with God,' or 'When I allowed Him to approach me.' Or to be really accurate, 'When I allowed myself to approach Him inside myself.' And those are the times of great joy."

"So happiness is connected with where are you focusing."

"And you want to see a great miracle, a great miracle is when a Soul takes Initiation. And what's the miracle? The miracle is the alignment with that person's will and God's Will, that's a great miracle. It's miraculous and that has to do with going for wholeness, going for once the alignment process - our will and God's Will. ... and once again to give the same quote from Dylan, 'Is not our purpose the same on this earth to Love and follow His Direction?' And the purpose is our alignment with God's Will and then what do we do? We discover that, wait a second, our will and God's Will in reality, they're One and the same. That's when you start getting health and wholeness, that's when you start getting the Oneness. You're going for wholeness. You're going for Unity. In the Unity of the Holy Spirit, whatever you want to call it. In the Unity of the Sound Current, that's who you are. And if there's Unity then guess what? There's no separation; you're living in the Oneness and you're Home Free: that's health."

"And if you want to take a look at physical health, if you want to take a look at mental health, it all has to do with choice points that we've made and being responsible for it... And when we have obsessions and compulsions they're all things that stop the flow of Spirit. And when we work with the units of ourselves, the lower consciousness, we really get to find out that the false self is here for a really good purpose: to help us with the alignment process. But it's our job as conscious beings to make the choice. Where do we focus? We focus into the negative or we focus into the Lord, God ... So we got free will. God gives us free will and guess what? If we exercise it properly, we exercise it into the wholeness and the Oneness ... we're Home Free."

*"... being
happy,
healthy,
wealthy
and wise is
connected
with our
loving God
because our
choosing to
be with
God,
that's an
expression
of our
Love...
And know-
ing that is
your wealth.*

From the Satsang
"What Is God's
Will For You?"

"So God's Gift is to wake us up through giving us Initiation. And then that's (the Soul that until Initiation has lain dormant) stirred and as you focus and reinforce the Spirit that you are that gets stronger and stronger and stronger and you start your progression. And your progression is totally determined by your choices and your free will. And isn't that neat because we're Co-creators with God? See, God needs us to complete His creation. And we exercise the choice of being with God inside ourselves, whether it's dropping anger, whether it's dropping fear, whether it's dropping pain, whether it's dropping judgement, etc., etc.

"And along with that goes wealth and what's meant by wealth — it's really important to know this — we're not just talking about money... But, it's about wealth. And

the key with wealth is knowing where it's located."

"... I'll tell you the secret. It's inside of you. It's inside of you and it consists of knowing the difference between life and death, and what is meant by that is being asleep. Because when you choose God, you choose Life, because it's a movement in the Eternality of who you are and a reaffirmation of that."

"And being happy, healthy, wealthy and wise is connected with our loving God because our choosing to be with God, that's an expression of our Love... And knowing that is your wealth. Knowing how Blessed you are at each and every moment. And that you're not lucky. You're not fortunate. None of that stuff. You're Blessed. And you're responsible. You exercise the free will... "

Try This

"Now get nice and quiet, Call in the Light by saying 'Lord, God send us your Light.' And just pick something that you're doing, and without really thinking about it, just allow all the, whatever you want to call it, all the vibes with it, everything connected with it to come forward. Now just allow, you don't have to do anything, all you have to do is receive, just allow yourself to choose to be Present with

God inside yourself, to let go of pain, doubt, fear, etc., to surrender all the negative stuff. There you go. What happens when you do that? "When we bring in Spirit, we surrender the self-willing mind and its products and its creations. Choose to be entirely Present with God."

Case Study

The idea of living in Mexico was something that I had dreamed about for years. More recently I envisioned a center to make the Path of Soul Transcendence available in Mexico. But I couldn't have imagined the awesome power brought forward when true "alignment" of my will with God's Will exists.

As an Initiate on The Path of Soul Transcendence I have come to know that God's Will for me is that I be happy. This is every parent's wish for its child and this is God's Will for all His children.

I've also discovered that the only time I am truly happy in this world occurs when my will is aligned with God's Will. When that occurs it is truly amazing how joyful and marvelous life can be and how incredibly easy everything becomes. My most outstanding experience which has shown me this on the Path of Soul Transcendence occurred on

my recent trip to Mexico with Karen Pisanelli, another Minister of the Light of the Most High.

Every aspect of the trip was like a marvelous dream -- like acting in a play scripted by the Lord, God Himself. Whenever we went we were warmly welcomed. Whomever we spoke to about the new Center was excited and wanted to help and participate. We were treated like royalty. We easily found a perfect location which not only fulfilled all of our criteria but was far beyond our expectations in every way.

The experience clearly showed me that when I follow my most ambitious, innermost dreams I am really aligned with God. What God wants for me is exactly what I want for myself. Fulfilling God and fulfilling myself are truly the same. Aligning my will with God's Will is the Path of Soul Transcendence.
